## — ABOUT US

---

*At ASEN, we have been developing and producing premium leather for more than 40 years, establishing ourselves as leading international producers and the first choice for premium brands worldwide.*

Leather is one of the oldest and most versatile materials known to mankind. Founded in Istanbul, Türkiye, ASEN Leather Company operates from state-of-the-art production facilities in the Tuzla Leather Organized Industrial Zone. Now in our second generation of family leadership, we carry forward a philosophy of continuous improvement, blending time-honored craftsmanship with cutting-edge technology.

Our most important principle is to produce qualified leather through environmentally friendly production. The result: innovative developments and products that set the standard for the global leather industry.

## — INDUSTRIES WE SERVE

ASEN Leather serves a diverse range of industries with over 180 product lines. Our leathers are produced from whole bovine hides, sides and splits, with an unmatched range of colors, textures and finishes.

<b>LEATHER GOODS &amp; HANDBAGS</b>	Premium hides for luxury bags, wallets, belts and accessories with diverse textures and finishes.
<b>FOOTWEAR</b>	Full-grain and corrected-grain leathers for high-end shoes and boots with comfort and durability.
<b>UPHOLSTERY</b>	Premium furniture and automotive leather with superior color consistency and wear resistance.
<b>GARMENTS</b>	Soft, supple leathers for jackets, coats and fashion apparel with excellent drape and hand feel.
<b>VEGETABLE TANNED</b>	Specialty veg-tan leather with rich patina development, ideal for artisan and heritage products.

*We are distinguished from other tanneries for having a very wide range of colors, diverse articles, specific styles and applications, innovative textures and creative designs — each crafted to meet the exacting standards of the world's leading brands.*

## — PRODUCTION & TANNING EXPERTISE

ASEN operates a fully integrated raw-to-finish production line, giving us complete control over quality at every stage. Our tannery employs multiple tanning methodologies to meet diverse performance and aesthetic requirements:

### ◆ CHROME TANNING

Fast, efficient process producing thin, soft leather with excellent color vibrancy. Ideal for fashion and garment applications.

### ◆ VEGETABLE TANNING

Traditional method using natural tannins from tree bark. Rich character and beautiful patina development over time.

### ◆ WET WHITE

Eco-friendly alternative using aldehydes or mineral salts. Chrome-free and environmentally responsible.

### ◆ METAL - FREE

Advanced entirely metal-free process delivering all the benefits of traditional methods without any metals.

*Our end-to-end capability — from raw hide selection through beamhouse, tanning, retanning, dyeing and finishing — ensures the highest quality standards while responding flexibly to client-specific requirements.*

## — SUSTAINABILITY & CERTIFICATIONS

At ASEN, sustainability means bringing the financial, environmental and social aspects of our operations together in a permanently balanced relationship. As a manufacturer of one of the oldest natural materials, we adopted ecologically advanced processes early on.

### LW G O L D R A T E D

Highest environmental stewardship certification from the Leather Working Group for best practices in leather manufacturing.

### B S C I C E R T I F I E D

Business Social Compliance Initiative certification ensuring ethical labor practices and social responsibility.

### S A T R A S T A N D A R D S

Compliance with SATRA quality assortment system for international quality assurance and testing.

### R E A C H C O M P L I A N T

Full compliance with EU chemical regulations ensuring safe and sustainable leather products.

- ◆ **Environmental:** Decades of optimizing material cycles, with our metal-free tanning process at the forefront of sustainable leather manufacturing.
- ◆ **Social:** Supporting charitable activities spanning research, employment, health and safety, and community welfare.
- ◆ **Quality:** In-house laboratory for constant monitoring, applying SATRA and international standards to every production batch.

## — WHY CHOOSE ASEN LEATHER

---

*Four decades of expertise, LWG Gold certification and raw-to-finish integration make ASEN the trusted partner for premium brands across the globe.*

- ▶ **40+ Years of Family Expertise:** Four decades of accumulated family knowledge in leather tanning, ensuring expertise in both traditional and modern techniques.
- ▶ **Raw-to-Finish Production:** Complete vertical integration from raw hide to finished leather, guaranteeing quality control at every stage.
- ▶ **Premium Brand Partner:** Active export partner to internationally recognised luxury brands across Japan, Italy, the UK, Germany and the US, supplying leather for fashion, luxury goods, footwear and upholstery.
- ▶ **Innovation-Driven:** Continuous investment in R&D, offering innovative textures, eco-friendly processes and custom solutions.
- ▶ **LWG Gold Rated:** Highest environmental stewardship certification, demonstrating our commitment to responsible manufacturing.
- ▶ **Global Reach:** Active exporter to Japan, Italy, the United Kingdom, Germany and the United States. Full traceability and compliance documentation available for all markets through the ASEN Passport system.
- ▶ **Family Legacy:** Second-generation leadership with long-term vision, driven by continuous improvement philosophy.
- ▶ **Custom Development:** Dedicated design team offering bespoke leather solutions tailored to individual brand identities.
- ▶ **ASEN Passport – Digital Traceability:** Every hide leaving our facility carries a unique stamp linked to a digital portal showing origin, carbon footprint, chemical compliance and LWG Gold status. Dedicated brand portals available for full supply chain transparency. Full brochure available upon request.
